

Sprint 1 Review

Team: **TEAM 102**

TA: **Siddhesh Salgaonkar**

Review Date: **11/02/2018**

Base Expectations

1. Getting the legacy code base running.
Comments: Good Job.

However, the project couldn't be built locally. Resolve the dependency on Chatter. Manage Java version properly. Target folder should be git ignored. Implement a logger. Obvious code smells should be removed.
(-1)

2. The team pushes only branches to origin and uses pull-requests for all merges to master.
master on origin has been protected so you must use pull requests. Jenkins runs on all pull-request submissions. It runs the test stage, which has Junit tests. Jenkins catches all failures in the test stage and blocks the merge to master.
Comments: Good Job. Follow proper branching practices – naming etc.
3. The project uses maven for builds. The project uses junit5 for unit tests.
Comments: Good Job. Resolve dependencies properly. Nice work on test cases.
4. The project is using at least version 1.8 of Java.
Comments: Good Job.
5. The system is packaged as a standalone system (it should not require being run in an IDE).
Comments: Deployed on AWS.
6. The system is deployed to a cloud environment such as Amazon AWS, Azure or Mass OpenCloud. You are encouraged to use a free service. You must provide administrator access to the project executives.
Comments: Completed. Deployment should be a part of Jenkins pipeline as well. You will be notified about the process by faculty.
7. Work is being managed in Jira.
Comments: Completed. Can manage cumulative flow in a better way as discussed in the meeting.

Stretches

8. (medium) Adding a notion of user and groups of users to the system, including CRUD functions.
Comments: Not completed.
9. (medium): Directing messages to individuals.
Comments: Not completed.
10. (large): Directing messages to groups, including a reply-all function.
Comments: Not completed.
11. (small): team is using smart commits in git.
Comments: Done +2
12. (small): Jenkins should inform the team of failure either in Slack or email.
Comments: Yet to be completed. But awarding points as request was made on Piazza. Please follow up to get it done. +2
13. (small): Github should inform the team of PRs via slack or email.
Comments: Completed. +2

Team Score: 90
